

NOTEBOOK

Issue #2 September 20, 2024

****Correction from Notebook #1****

PART TIME WORK 2024-2025

For 2024-2025 there are 187 days in session. However, there is an imbalance in the number of different weekdays since most holidays fall on a Monday or a Friday. Here is the break down for this school year: **Mondays-32, Tuesdays-39, Wednesdays-39, Thursdays-39, Fridays- 38.**

For teachers who work part time on certain days of the week, this can affect the number of workdays in the year. To determine how many days you should work this year, multiply your FTE by 187 days. Then add up the number of days you will work based on the days of the week to find out if there is a discrepancy. For example, if a teacher works 0.4 FTE on Tuesdays and Wednesdays they will actually work **78 days (39 Tuesdays plus 39 Wednesdays)** but they should work 74.8 days (0.4 times 187). They would be **owed 3.2 days** if they worked every Tuesday and Wednesday all year long.

Job Share–If you are in a job share, then you and your partner need to work out how to make the days equitable. For example, if your partner works on Mondays, they may need to cover another day of the week for you some time during the school year. Be sure to keep your principal informed about any scheduling changes you make.

Part Time–If you work part time, and are owed days, speak to your principal about how it will be addressed. You can either choose to take the extra days off or receive compensatory pay. It is at your discretion which option you choose. If you work too few days, you will need to work the additional days necessary.

If you have any questions or need help to verify calculations, please contact [Vickie Vinaric](#) or [Robin Deleurme](#) at the NVTA office.

SD 44 SALARY GRID July 1, 2024
